Muntinlupa City, Metro Manila, Philippines

Professional Summary	Detail-oriented Web Developer with a strong foundation in frontend development and WordPress integration. Skilled in building responsive, user-centric websites from the ground up using HTML, CSS, JavaScript and PHP. Experinced in working closely with web designers to implement clean and functional UI/UX designs. Adept at transforming static designs into dynamic web templates and managing web content via WordPress. Eager to expand into modern technologies while contributing to high-performance development teams.

Work Experience

Nov 2023 - Present

Web Developer – Makati City
RightCore Inc.
- Collaborate with a web designer to transform UI/UX wireframes into responsive, production-ready web pages.
- Develop and maintain user-friendly front-end interfaces using HTML, CSS, and JavaScript.
- Convert static layouts into dynamic PHP-based WordPress templates
- Customize and integrate WordPress plugins to match project requirements
- Improve development efficiency by automatic repetitive tasks using PHP and JavaScript
- Manage content, domains, and assets through WordPress admin.

Jun 2023 – Aug 2023

Software Developer Intern – BGC, Taguig City
Data Science & Analytics Group (DSAG)
Rizal Commercial Banking Corporation (RCBC)
- Led front-end development team for data dictionary web application, ensuring alignment with project objectives and presenting the project to stakeholders.
- Built interactive, responsive web interfaces with HTML, CSS, JavaScript, and Bootstrap.
- Collaborated on UI/UX wireframes using Figma.
- Implemented backend integration with Django and Python Jinja templates.
- Used Docker for containerized development and Git for version control.

Jul 2022 – Aug 2022

Back-end Web Developer Intern
IT Department
Melham Construction Corporation (MCC)
- Integrated and tested CRUD features in the company's LMS project.
- Enhanced page layouts using HTML and PHP.
- Improved user experience with responsive Bootstrap components.
- Perform database operations using phpMyAdmin'
- Used AJAX to create smoother, real-time user interactions.

Skills

- *Language & Frameworks:* HTML5, CSS3, JavaScript (vanilla), PHP, Bootstrap, Python
- *Content Management:* WordPress (custom themes, templates, and plugin integration)
- *Prototyping & UI Development:* Translates wireframes into functional prototypes coded with real layout, styling, and interactions
- *Version Control:* Proficient in Git (commiting, branching, merging, pull requests); familiar with GitHub and GitLab workflows
- *API:* Basic knowledge of web APIs, eager to learn REST and other integrations
- *Database:* MySQL (sorting, joining, selecting, ordering, extracting)
- *Tools:* WordPress, Git, Docker, Figma, Microsoft Office Suites, Google Workspace

- Fast learner with a proactive mindset; quick to adapt to new tools, feedback, and evolving project needs
- Strong communicator; confident in presenting ideas and aligning project goals with stakeholders
- Effective collaborator with designers and cross-functional teams
- Demonstrates leadership in small, focused teams and project initiatives
- Manages timelines and prioritizes tasks independently
- Creative, empathetic, and detail-oriented
- Approaches challenges analytically and implements practical, scalable solutions
- Ensures visual and functional precision throughout the development process
