Professional Summary

Creative and detail-oriented Web Developer with experience managing developer and design teams in delivering responsive, visually polished, and user-focused websites for Japanese clients. Skilled in front-end development, WordPress customization, and code review, with a strong foundation in translating Figma designs into functional, high-performance web solutions. Recognized for combining technical precision with leadership and design sensibility to enhance team productivity and project quality.

Work Experience

Nov 2023 - Present

Section Chief / Web Developer – Makati City
Rightcore Inc.
Award: 2024 MVP for Coders
Leads the developer and design teams while remaining actively involved in front-end development and WordPress implementation. Ensures technical quality, workflow efficiency, and design precision across all Japanese client projects.

- Conduct code and feature reviews and provide technical guidance to ensure accurate implementation, clean structure, and consistency with design specifications
- Develop responsive, user-friendly websites by translating Figma UI/UX wireframes into dynamic WordPress websites
- Build and customize WordPress themes using PHP, custom post types, and smart custom fields
- Lead weekly meetings and oversee team operations, including task assignments, attendance, and progress monitoring

Jun 2023 – Aug 2023

Data Engineer (Software Developer) Intern – BGC, Taguig City
Rizal Commercial Banking Corporation (RCBC)
Data Science & Analytics Group (DSAG)

- Led front-end team for a data dictionary web app, aligning UI design with technical implementation and presenting outcomes to stakeholders.
- Built interactive, responsive interfaces using HTML, CSS, Bootstrap, and integrated Django backend with Python Jinja templates.
- Oversaw critical pages including user management with CRUD modals and metadata registration forms, ensuring both usability and aesthetic appeal.
- Optimized development workflows using Docker and Git Control.

Jul 2022 – Aug 2022

Back-end Web Developer Intern
Melham Construction Corporation (MCC)
IT Department

- Developed and optimized LMS functionalities with clean, responsive web layouts.
- Improved user experience by applying Bootstrap and AJAX for real-time, interactive features.
- Managed database operations via phpMyAdmin to support functional and design needs.

Skills

- ***Web Development & Programming***: HTML5, CSS3, JavaScript (vanilla), PHP, Bootstrap, Python
- ***Content Management & CMS***: WordPress (custom themes, templates, plugins, custom post types, smart custom fields)
- ***UI/UX & Prototyping***: Figma, wireframe translation, responsive design
- ***Version Control & Workflow***: Git (commiting, branching, merging, pull requests); GitHub and GitLab workflows
- ***Database Management***: MySQL (queries, joins, selections, ordering, extraction)
- ***Tools & Platforms***: WordPress admin, Microsoft Office, Google Workspace

- Creative, detail-oriented, and design conscious
- Analytical problem solver with practical, scalable solutions
- Strong communicator and collaborative team player
- Fast learner and proactive, adapts quickly to new tools and project needs
- Ensures visual and functional precision throughout the development process
